Stegano

Name:

S2: Save the Cutest Cat!

Message:

Description:

Oh no! The world’s most adorable cat has been kidnapped by some seriously clueless criminals. But don’t worry; this clever kitty is trying to reach you with a hidden message! Your mission (should you choose to accept it) is to decode the message before the bad guys realize what’s going on.

Can you crack the cat code and help us bring this furry mastermind home? The fate of all future cat memes depends on you!

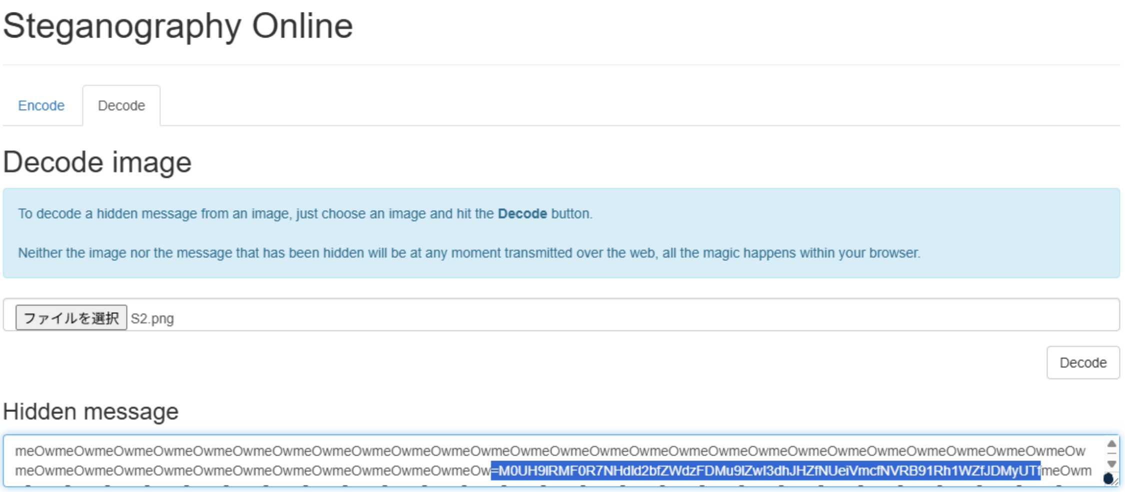
Details:

This is the last picture Mingming sent us before being cat-napped. Now we’re completely clueless and need your help to figure out what our furry friend is trying to tell us!

Can you crack the code and save the day?

Instructions:

Use online decoder for Steganography on images like the page below then use the CyberChef for a couple of decoding base64 and reversing the string.
https://stylesuxx.github.io/steganography/



To decode a hidden message from an image, just choose an image and hit the **Decode** button.

Neither the image nor the message that has been hidden will be at any moment transmitted over the web, all the magic happens within your browser.
