Name:

Easy Web Exploit: Exploit Me

Message:

Exploit following web site to extract flag.

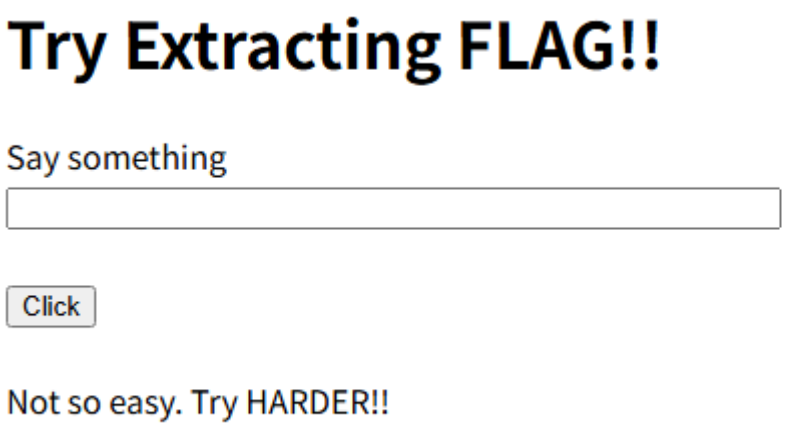

https://easy-web-exploit.ajccbc-cyber-sea-game.net/challenge.php

Objective:

Extract message hidden in the line2plain_o65537.png

Instructions:

If you try any values in you will get “Not so easy. Try HARDER!!”.

Now let try HARDER as input then you will get following.

Try Extracting FLAG!!

Say something

Click

you got HARDER part right

id	value
1	HARDER

Now this looks very much like a SQLi challenge.

You need keyword “HARDER” to execute any statement.

Execute a wrong statement to acquire error message, then you will know the database is MySQL.

Try Extracting FLAG!!

Say something

Click

you got HARDER part right
Error: You have an error in your SQL syntax; check the manual that corresponds to your MySQL server version for the right syntax to use near 'showtables; #HARDER'' at line 1

Now all you have to do is execute SHOW TABLES to identify table that contains flag value and execute SELECT * FROM FLAG to get flag value.
